Residential Waste Collection and COVID-19

Guidelines for Residents

Cleveland, Ohio - The Cuyahoga County Solid Waste District is monitoring residential waste collection services during this pandemic.

To protect the health and safety of their workers, many communities and their contractors have implemented changes to normal collection services. Some of these changes include the suspension of bulky waste collection, yard waste collection and special waste services such as collections of household hazardous waste.

The Solid Waste District wants all Cuyahoga County residents to observe the following recommendations:

- Contain ALL waste and recyclables within the appropriate container or cart. Do not leave any waste outside of containers.
- Hold any excess material for the following week if it does not fit in your container or cart.
- Hold all bulky and special wastes until your city resumes these services, if suspended.
- Check your city website for details or changes to your normal collection services.

Following these tips will help ease the burden on waste collection workers as they continue to provide this critical and essential service to the residents of Cuyahoga County during this difficult time.

About The Cuyahoga County Solid Waste District

The Cuyahoga County Solid Waste District is the public agency helping the people of Cuyahoga County reduce, reuse and recycle at home, at work and in their communities. We serve as the leading resource in the County for information, expertise and programs that support sustainable materials management and reduce the environmental impact of waste. Visit www.CuyahogaRecycles.org send an email to swdinfo@cuyahogacounty.us
